Short presentation of your organisation (key activities, experience)	Our school is located in a small town Pakrac, Pozega-Slavonia County, Croatia. There are about 680 students aged 6-15. We carried out some school projects in cooperation with our local community. Some of the activities that students and teachers do you can see at our website. This is the first time we try to accomplish international cooperation. We would like to exchange ideas and experiences in order to improve students' integration process into the new environment.
<b>Description of the project</b>	
Action, Measure in the framework of „Europe for Citizens” Programme	2.1. Town twinning
Timetable of the project	1/9/2016- 31/3/2017
Short description of the project, including its aims	The project is aimed at elementary school students immigrants and their better integration into new environment. Participants in project will have opportunity to connect with schools and organizations who have met with problem of including immigrant students, as well as their families, in new environment.  Main goal is to see how both sides react to immigration - how is it to be immigrant and how is it to receive immigrants. Open dialog should thrive to better understanding and communication, as well as integration.

Participants will be immigrant students, their parents and their teachers, as well as classmates of students immigrants and their parents.

Activities include: main meeting at our town and preparation for this meeting.

Each participant community will make electronic media greeting card as preparation and pre acquaintance of participants. This will be an opportunity for participants to get to know language and cultural markings of each participant's community.

Main activity will be a meeting held at town of Pakrac. During the meeting, participants will join different workshops - for parents, teachers and students. Workshops will be organized in such a manner that participants can share their experiences, positive and negative, while meeting immigrants or while being one. Locals can attend workshops as well. Workshop for students should be organized in form of games for developing co-operative skills.

The long-term outcome of workshops will be better mutual understanding of all included participants. Conclusions will be published in form of manifest and digital documentary made by students participants.

Our role in project is making greeting card from our community and organizing workshops and everything what is needed during the meeting.

The role of partner organization is to make greeting cards from their community and organizing a group of students, parents and teachers who are willing to participate in workshops. Expected number of guest participants is up to 35.

All expenses should be paid from project funds. All organizations are welcome to join (schools, culture centers, cities, NGO-s, ...).

We are open to suggestions for improving and expanding activities, so we can have better cooperation and better fulfilment of project goals.

We are looking forward to hearing from and cooperating with you.
